 July 1998
 April 2003

QUESTION: Is it within the role and scope of responsibilities of the licensed practical nurse (LPN) to perform physical assessment?

The State Board of Nursing for South Carolina recognizes the role of the licensed practical nurse (LPN) in assisting with assessment of the patient and collection of patient health data to be used for the complete physical assessment. However, the analysis and synthesis of clinical information and the formulation of problem statements and/or nursing diagnoses requires the knowledge base and skills that are within the scope of practice of the registered nurse (RN) and may not be delegated to the LPN.

This statement is an advisory opinion of the Board of Nursing as to what constitutes competent and safe nursing practice.
